

August 20, 1945

Tucker & Howell  
Rhodes-Haverty Building  
Atlanta, Georgia

Gentlemen:

Mr. Tucker

At a meeting in Mr. Marion Smith's office with Doctor Sanford, Mr. Smith and Doctor Sanford requested me to inform you that the plans and construction figures furnished by you were unsatisfactory. They asked me to make other arrangements with someone more familiar with converting buildings into use for school purposes.

Mr. Smith already has letters from other sources stating that plans and figures could be given satisfactory to him under the amount of \$85,000.

Please be assured that we all appreciate your interest and efforts in trying to arrive at the figure as set forth at the first meeting in the Regent's office with Mr. Driftmier and Doctor Sanford.

Cordially yours

GEO. M. SPARKS  
Director
