

Rattles and Squeaks

THE difference between a squeaky rattle-trap and a gloriously smooth-running automobile does not lie solely in age, nor even in the nameplate on the front.

A cheap car that is kept well lubricated runs better than an expensive car that is neglected.

We render a service that keeps your car running without undue wear at any point. It protects each wearing surface with a film of good lubricant.

It is the cheapest service you can buy for your car; and it pays big dividends.

Our lubrication department is operated by men who know their work and are proud to do it well.

Only the very best oils and greases are used and the rates are most reasonable.

GREASING RATES

Single Greasing . . .
from 75c for Fords, up
to \$2 for Rolls-Royce
cars. Six Greasings...
from \$5 to \$10.
