

SIGNAL SOCIETY

BY BILLIE MCKENZIE
Signal Staff Writer

ALPHA PHI pledge week was held Wednesday, Thursday, and Friday, Dec. 4 through 6th, and was climaxed by informal initiation Friday night. The initiation was followed by a spend-the-night party at Elaine Bledsoe's.

CAROLYN LEE, past president of Delta Zeta, will attend the Gator Bowl and the Orange Bowl, and will spend several days in Jacksonville and Miami.

SIGMA ALPHA NU will have a Christmas party at school lodge on Dec. 21, at which time they will have a gift exchange.

SANDRA WALKER, past president of AOPi gave a coffee for Betty Wright (who will be married on Dec. 28) on Dec. 4 in the sorority chapter room. All AOPi actives and pledges attended.

A BANQUET at the Atlanta Athletic Club will be held by the AOPi's in celebration of Founders' Day, Dec. 8.

LARRY HORNE, Pi Kappa Phi, visited the fraternity chapter house at North Carolina State over the Thanksgiving holidays.

BEVERLY DAVIS and Toby Moore were married Friday night, Nov. 29, at the East Point First Methodist Church. Beverly is a Delta Zeta, and several of the sorority members were in the wedding, including Georganna Hanson, Monty Myers, Mary Bean Braswell, Frances White and Patsy Riley.

A CHRISTMAS dance will be held by AOPi on Dec. 21 in the student lounge.

BOB DUCKWORTH and Margaret Gibson will be married at St. Anthony's Church on Dec. 28. Both are Georgia State students. Duckworth is past president of the Veteran's Club, the Marketing Club and a member of Pi Sigma Epsilon.

DELTA ZETA will hold its annual Silver Tree Ball on Dec. 19 in the Student Lounge. All Georgia State Students are invited. Don Brown and his band will play for the dance, and after the affair, Dee Ann Howard and Jack Donald (to be married on Dec. 14) will entertain several of the Delta Zetas and their dates at a breakfast.

SIGMA KAPPA CHI will hold a Founders' Day celebration and Christmas party at the Cedar Club on Saturday night, Dec. 14.

HAROLD and Barbara Matthews are the parents of a baby girl, Cynthia Lee, born Oct. 25. Harold is a student here, and past president of Sigma Phi Epsilon; Barbara is the former Barbara Stubbs, and attended Georgia State in 1955 and 1956.

ROOF-TOP STUDIO—Pat Peirce takes advantage of the Art Department's location near the roof where art students can take advantage of true light. Here Peirce is making a crayon sketch of an unidentified model.

Art Department Expands From Two Studios to Seven

At Georgia State College studying goes on not only under the roofs but over them. Students in the College's Art Department often study on the roof of the Ivy Street building. This vantage point affords a good view of Atlanta's skyline.

Students in the Art Department study advertising design, drawing, painting, ceramics, crafts, and art history. The department has seven studios available for art students. Four years ago the art department had only two studios and two staff members. Currently, the department has four full-time instructors and two part-time instructors.

Mr. Joseph Perrin, head of the Georgia State Art Department, said coordinating art and business training is a joint objective between the Art Department and the various other departments of the College.

The staff members of the Art Department are active in the commercial art field for Southeastern firms and several of the staff members have won awards in regional art competitions. The Southeastern states painting of the year was won by Perrin this year. Perrin's winning painting, entitled "Still Life With Blue Vase," won a first purchase prize of \$1,000.

Each year Georgia State art students design and display their work in Hurt Park. A program of changing exhibitions is on display in the seventh floor corridor gallery of the Ivy Street building. This exhibition, like the one in Hurt Park, is open to all students.

Four Are Initiated Into Crimson Key

Crimson Key Honor Society initiated four new members Saturday, Nov. 23, at the Henry Grady Hotel. The initiation preceded the regular monthly meeting.

Those initiated were Sally Crawford, Ruth Dillard, Grace Perry, and Carole Scott.

Plans are being made for a tea honoring junior and senior women students who have maintained the scholastic average. The tea will be held on Sunday, Dec. 15, in the Conference Room at Georgia State College.

"To be eligible for membership, a junior or senior woman student must have maintained an average of B or better and must be active in other school organizations," said Marilyn Barechson, president of the collegiate chapter.

MARRIAGE TOAST—Tim Fleming and his bride, Marilou Romine Fleming, toast each other at their recent wedding. Marilou is a student here and a member of Alpha Omicron Pi. Tim is now in the Navy and was a student at Tech.

WEDDING BELLS—The former Zoanne Hagy and Dave Thompson stop for a brief minute after their recent wedding. Both are students here and Dave is a member of the Players, the College drama group. The couple will reside here in Atlanta.

Mrs. Langdale Lives Busy Life As President's Wife

Mrs. Alice Elizabeth Langdale, the wife of Georgia State President Noah Langdale Jr., shares her husband's enthusiasm for keeping busy. Since coming to Atlanta, Mrs. Langdale says that her main ambition has been to be a "good president's wife."

She added that the responsibilities of being a college president's wife are more than adequate to fill her already busy schedule. Mrs. Langdale has given two teas for some of the students of the college at her home and she said that she is looking forward to giving many more.

When asked her impressions of Atlanta, Mrs. Langdale said that she "loves living in Atlanta" and that Atlanta is a "symbol of the South as it was and should be. It is a place of warmth, graciousness and hospitality."

Mrs. Langdale, the First Lady of Georgia State College, attended the Lucy Cobb Institute and Athens high school. From there she went to the University of Georgia where she was active in a number of honorary and extra-curricular societies.

She was a member of Chi Omega Social Sorority president of the Young Women's Christian Association in Athens, a member of Mortar Board Honorary Society and a participant in the Junior Assembly at the university.

In 1944 she met and married President Langdale, who was then a trainee at the Navy's pre-flight school in Athens. The Langdales now have a ten year old son, Michael.

After the Second World War, the Langdales lived in Cambridge, Mass., where Mr. Langdale did graduate work at Harvard University. While they were there, Mrs. Langdale was a Gray Lady at Bedford Veterans' Hospital two nights a week. When asked about the work at the hospital, she replied, "Great! I just loved it." She is equally enthusiastic about her other charitable activities.

When the Langdales returned to Georgia in 1950, Mrs. Langdale became Junior Service League Chairman in Valdosta. She was also chairman at a school for exceptional children, a member of the hospital auxiliary, a Red Cross worker and was on the board of directors of the Youth Center in Valdosta.

In her "spare time" she was co-chairman of the United Fund Drive and a Circle Leader at the Methodist church.

The College's First Lady said that she is quite impressed with the friendly spirit here in Atlanta and that she is looking forward to making many new acquaintances.

'DRUNKARD'—The Players are shown here during their performance of "The Drunkard," which was presented Wednesday and Thursday night and will be shown again tonight at 8:30 p.m. in the "Little Theater" on the sixth floor of the Ivy building.

Political Science Major Starts in Winter Quarter

With the recent addition of the BA degree to the curriculum of Georgia State College the Political Science Department became authorized to offer programs leading toward four year degrees.

William M. Grubbs, head of the Political Science department at Georgia State, said his department is now fully qualified, both from the point of view of its staff and courses, to offer a program leading toward a four year major.

He added that the addition of the BA degree has greatly broadened the scope of the Political Science courses previously offered at Georgia State. The department now offers twelve courses for juniors and seniors. Grubbs added that plans now call for the installation of a major in political science beginning in January, 1958.

Three new courses in political science are scheduled to begin in the winter quarter. The day program will include one additional course entitled, "State Government in the United States." "Democratic Government of Western Europe" will be offered for the Monday, Wednesday and Friday evening classes. American Political Parties is the title of the new course to be offered in the Tuesday and Thursday evening classes.

The political science department has a staff of seven. Dr. Fredrick Harris, Jr., Dr. J. W. Selman and Professor Roy E. Gossett are recent additions to the staff. Other staff members are, Mrs. Ruth L. Bonner, Professor B. O. Quillian and Dr. George G. Thielman.

Ga. Society of CPA's Hold Tax Forum Here

A Federal Income Tax forum was presented by the Atlanta chapter of the Georgia Society of Certified Public Accountants here on Nov. 21 and 22.

The program was designed to deal with practical tax matters encountered by every day practitioners.

Dean of the School of Business Administration George E. Mannings gave the welcoming address. Several talks and a panel discussion followed.

ON GREATNESS

I once met a great man,
Or a man people said was great.

I said: I have heard of your great deeds,
Because of this you are a great man.

He laughed, and then he said
Those deeds do not seem great to me,
But if the people think so, let them.

It makes life very pleasant.

—Marilyn Riley

\$250,000 Air-Conditioning System in Operation Here

BY LANNY HURST
Signal Staff Writer

In the hottest weather the faculty and students in the Gilmer Street Building stay cool. This is made possible by the air-conditioning system. This system sends cool air into 70 offices and 75 classrooms in addition to the library, student lounge, cafeteria, and other places in the building.

The heart of the air-conditioning system is in the boiler room, which is located on the first floor of the Gilmer Street Building. Located in the boiler room is a 450-ton compressor. This compressor is powered by a 450-horsepower motor. Also in the boiler room is a cooler and a condenser.

There is a water-cooling tower on the roof of the Gilmer Street Building. There are eight fan rooms in the building, two on each floor. The fan rooms on each floor are located one at each end of the building. These rooms regulate the temperature of the part of the building in which they are located.

The air-conditioning system was installed when the building was constructed. Building Superintendent Jack Stone estimates the cost of the air-conditioning and heating system at that time as being about \$250,000.

Stone said that the cost of operating the air conditioner per day is from \$45 to \$55. The cost varies with the outside temperature. The air conditioner operates about 11 hours each day during the cooling season, which is from May through September.

A constant check is kept by the Maintenance Department on the air-handling equipment while the equipment is operating.

KEEPS COLLEGE COOL, WARM—The 450 ton air-conditioner, part of which is shown here, that keeps Georgia State cool in the summer and warm in the winter, is located on the first floor of the new building adjacent to the gym. Units of the machine are located on each floor.

Sparks Scholarship Fund Originated Here in 1953

The George M. Sparks Scholarship Fund was originated at Georgia State College in 1953. It was begun during the winter quarter of 1953 as a memorial to Dr. Sparks, who was celebrating his 25th year as president of Georgia State. The scholarship fund was started by one of Professor Thomas Purdom's classes. The class gave a party at the College lodge and had some money left over. Rather than refund the money to the members, they then began the scholarship on a small basis.

Dean J. C. Horton Burch is chairman of the Board of Founders. This board is composed of 15 members composed of faculty, alumni, and the presidents of the Day and Night School student body. These members choose a committee to decide who will be awarded the scholarship. A new committee is picked each year composed of two alumni, two faculty members, and two students.

The scholarship provides financial aid for graduates of Georgia State who want to do graduate work but are unable to afford it. Candidates are picked on a basis of scholastic record and on ability for doing good work.

for the Sparks Scholarship Fund. The total amount collected from the drive to date is \$823.23. The majority has come from student collections, with some from the faculty and staff. Twenty-one classes have not turned in collection reports yet.

The George M. Sparks Scholarship is granted first to a graduating senior, and then if the fund allows, to an undergraduate student.

Two former Georgia State students who have received this scholarship funds are Miss Shirley Thompson and Mrs. Kathleen Duncan Crouch. Both are doing graduate work at out-of-state universities.

History Department Offers Courses for BA Major

The History Department at Georgia State College is well on its way towards being a full fledged department in the School of Arts and Sciences, said Dr. John A. Alexander, head of the History Department.

With the Sept. 20 action of the State Board of Regents which authorized Georgia State College to add the Bachelor of Arts degree to its curriculum, the Department of History became one of the four departments to offer majors in the BA degree program.

Beginning in the winter quarter of 1958, courses will be available leading to the Bachelor of Arts in history, Dr. Alexander said.

In addition, the History Department will offer appropriate programs for minors in history.

Ever Wonder About Novel Name of College Yearbook?

Have you ever wondered how the Georgia State College yearbook got its name?

"Rampway" became the official name of Georgia State's yearbook in 1947 when the College was moved to its present location in the "old building" on Ivy Street.

But, why "Rampway"? Many colleges have yearbook titles which are meaningful without further explanation, that is certainly not the case with the Georgia State yearbook.

THE NAME "Rampway" was selected for our yearbook because it is a symbol of the proud but humble beginnings of this educational institution, in that the "old Ivy Street building" was once a parking garage whose purpose and function has been changed but whose rampways remain intact. Once filled with automobiles and the smell of exhaust, the rampways are now filled with students who seek a higher education.

Back in 1934, when Georgia State College was known as the University System of Georgia Evening School, the first yearbook of the College came into being. This annual, published by evening school students, was a thin, paper-backed book named, "The Nocturne."

When the College was given day classes, it assumed the name Atlanta Junior College, and "The Gateway" became the name of the College yearbook. The new yearbook title was symbolic of the iron gates gracing the front entrance of the Lucky Street building, where the school was then located.

DURING the years of World War II the materials for producing and publishing a yearbook were difficult to obtain due to industrial demands for vital materials made necessary by our nation's all-out war effort.

In 1946 the war ended, and once again paper, ink, and lead could be obtained. Once again, and for the last time, The Nocturne was published.

The years from 1947 to the present day have been years of growth and development for the "Rampway," which has been our yearbook for those past 10 years.

Physically, "Rampway" is a "ADVANCED Civil War and Reconstruction," "Advanced American History," and "Advanced Ancient History" are three courses which will be added to the curriculum, Dr. Alexander added.

Required history courses for all students in the School of Arts and Sciences at Georgia State College are History 111 and 112, which are surveys of western civilization. History 351 and 352, courses in American history, are also required. History 112, survey of western civilization, and History 113, American history, are required of students in the School of Business Administration.

Dr. Melvin Eeke, Dr. Henry T. Malone, Dr. John D. Oliver, Dr. Derrel Roberts, Dr. Gaines W. Walker, Dr. David Wells, Dr. Ellen Evans, James Camp, William R. Coffey, and Virgil Davis make up the staff of the Georgia State History Department.

Personnel Testing Institute Held At Georgia State

The second annual Institute on Personnel Testing was conducted at Georgia State College Nov. 21-22.

Dr. Cameron L. Fincher, director of testing and counseling at Georgia State, and Dr. Bailey M. Wade, head of the Psychology Department here, conducted the institute.

"The Institute on Personnel Testing is planned for those people in business and industry who are concerned with the selection and placement of employees," said Fincher.

"BEACON—The Signal's "Beacon" for this issue is Joyce Pickett, a freshman in the School of Arts and Sciences and an Alpha Phi pledge. Joyce was a candidate in the Homecoming Queen and one of the 11 finalists.

Robert Mitchell Is Speaker at Circle K Meet

The Circle K Club at Georgia State held its monthly meeting on Nov. 21, with Mr. Robert Mitchell, partner in the Mitchell and Jackson accounting firm, as the guest speaker.

Mitchell told the group to "build up friendships in college" and that the memories that you obtain here in college will always remain with you.

The group was told that making a living isn't just making money for the satisfaction of needs, but that we have a responsibility to our college, community, and church for all the good things that we have.

A short business meeting was conducted prior to the speech. Anyone interested in joining Circle K should get in touch with Ronald Crowley, president, or any other Circle K member.

Alpha Kappa Psi Initiates 13 Pledges

Alpha Kappa Psi national professional fraternity initiated 13 pledges in a formal ceremony held here at the College last Sunday.

Those that were bestowed membership in AKPsi were: George B. Adams, Gerald Barger, W.J. Gilleland, Homer Hannah, Joseph W. Hardin, Anthon Marcovecchio Jr.

Charles Ray, Robert W. Ryals, Thomas I. Sangster, Thomas G. Sloan, Bob Smith, Earl Vandgriff and Don Barrow

JUST CHECKING—Dean of the Henry W. Grady School of Journalism at the University of Georgia, John Drewry (left) and Selby McCash, editor of the University of Georgia newspaper, the Red and Black, check over the program for the recent meeting of Sigma Delta Chi professional journalism fraternity. McCash was editor of the Signal in the spring quarter of 1956 before transferring to Georgia to complete his journalism studies.

Motion and Time Class Conducts Microfilm Study

Lights, camera, action... This was the scene in the Production Laboratory of the Motion and Time Class last week during the filming of a micromotion study.

A micromotion study is the filming of a manual or machine operation by the use of a motion picture camera. The film records fast motions otherwise invisible to the naked eye. An analysis of the film is made by projecting it slowly on a screen and then studying the paths of motions, lengths of motions, and the time elements involved.

The microfilm study was a group project of the Motion and Time Class under the direction of Dr. James Chapman, chairman of the Department of Management at Georgia State College.

The operation filmed by the group was a wrench assembly which was composed of seven parts. The old method was filmed showing the assembler assembling one part at a time entirely by hand. The group devised and proposed a new method which involved a foot-operated jig which permitted two wrenches to be assembled at one time.

Award Directory Assists Students In Graduate Study

The publication of the first annual World Wide Graduate Award Directory was recently announced by the Advancement and Placement Institute of New York.

This new directory has been prepared as an aid for American teachers, administrators, scientists, and social scientists who wish to subsidize the continuation of their education to obtain their master's or doctorate degrees or to do post-doctorate or independent research.

The award guide includes information about the field of study, the duration of awards, the amount of stipends, and the number available. Also included are when the awards are tenable, the specific conditions, and to whom and when to apply.

Copies of the directory may be examined at graduate schools, public and college libraries, or may be ordered from the Institute at Box 99E, Greenpoint Station, Brooklyn 22, New York, for \$2.00 per copy.

book 9 by 12 inches in size and containing approximately 200 pages.

But the "Rampway" is more than physical in its existence. It has a spirit which springs from its rich tradition.

The "Rampway" is a portrait of college life—your life.

Location of GSC Ideal for Cultural Growth of Student

Often times the students here at Georgia State overlook some of the most important educational opportunities which are available merely because of the location of our college in downtown Atlanta.

We have at our disposal many cultural aspects which are not available at many other colleges and universities. A college education is not just merely book learning and classroom lectures. It is a composite of the things which the individual encounters during his college years.

Here at Georgia State, as well as at other colleges located in metropolitan cities such as Atlanta, we are exposed to many forms of culture which the college student should make a part of his college life.

There are such things as the symphonies and the operas which demand mental attention from the individual before he can really appreciate the music.

Atlanta and the colleges here are producers of many great plays. Many of the well-known plays such as "Damn Yankee" and "The Pajama Game" have been here recently.

Atlanta has many fine art institutions where students can study and observe art masterpieces in

conjunction with their college work or for just plain enjoyment.

The students and the colleges here are extremely fortunate in having so many business firms in the surrounding territory. These firms furnish jobs for students, subsidies for the colleges, and offer excellent opportunities to do research work in the business field. Also these same firms provide the colleges with part-time professors that not only know the book learning, but know the practical side of business.

STUDENTS HERE have the opportunity to broaden their knowledge in various fields or in some specialized field. It is up to the individual to take advantage of these opportunities that are offered to him.

Now I would like to add a personal note to thank those who have read this far. It has been a great pleasure for me to serve as the news editor of the Signal during my last quarter at Georgia State. It has been an enlightening and enjoyable experience to work with the fine staff that we have.

With these thoughts in mind I type my last words for the Georgia State Signal this quarter.

Concert Band, Cadet Choir Present Christmas Songs

The College concert band and the ROTC Cadet Choir presented a program of Christmas numbers and carols at assembly yesterday before an audience of students, faculty administration members who received the program with applause after each number.

The program was opened by the band's rendition of "The Christmas Suite." This number was followed by a short introduction of the Cadet Choir by the PMS&T of the College's ROTC unit, Lt. Col. William P. Davis.

The Cadet Choir then sang "God Rest You Merry Gentlemen," "Just Bambino," "On Christmas Night All Christians Sing," "Silent Night, Holy Night," and "Jesus, Joy of Man's Desiring." The last number was presented by the Choir and the band together.

The Cadet Choir will appear on WAGA-TV at 6 p.m. tomorrow, Dec. 7, for a 30-minute show.

The Student Speaks

What Do You Think About Social Frats, Sororities?

QUESTION: What is your reaction to the presence of social fraternities and sororities here at Georgia State? (Asked of students who are not members of these groups.)

SUSAN KELLY, FRESHMAN: "I think they are very educational in that they give their members a good social experience and promote their members' interests in their academic education."

ALBERT McCLESKEY, JUNIOR: "I think they are helpful, however I believe they tend to be too time consuming."

SUSAN BARRETT, FRESHMAN: "I think they are helpful to students in general and are a valuable part of college life."

BILL MAXEY, FRESHMAN: "I think they are helpful in certain ways, but they take up too much time. They also tend to form cliques which are harmful. The expense is to be thought of also. It's expensive."

MARTHA FREE, FRESHMAN: "I think they are fine and are helpful to their members."

RICHARD FORD, SOPHOMORE: "The social program at Georgia State could do much to contribute to the closer personal ties between students. I know they are doing their best, but I think that the urban nature of our College and the number of working and night students are almost insurmountable obstacles for them to overcome."

STEWARDESS NOW — Murray Dukes who attended Georgia State from September, 1955 to June, 1957, is a recent graduate of Delta Air Lines stewardess training school. She was social and rush chairman for Alpha Phi sorority while here.

Management Department: Old, Yet Modern, Complete

The Management Department at Georgia State College is one of the oldest departments here, dating back to Sept. of 1948.

Since 1956 Dr. James E. Chapman has been chairman of the department. Dr. Francis J. Bridges and Dr. Michael H. Mescon are associate professors in the department, and Dr. William G. Scott is an assistant professor.

Mr. Elbert T. Eggers, also a member of the department, is on leave to complete his doctorate dissertation at Indiana University, and he is expected to receive his D.B.A. degree in June.

Each member of the department is currently engaged in some form of writing. Dr. Mescon and Dr. Scott are each working on several articles and a manuscript. Dr. Bridges and Dr. Chapman are doing work on research monographs.

Beginning next September, a program leading to a master's degree in management will be provided by the management department at Georgia State.

Interested students should contact the Dean of Business Administration, George Manners.

An expanded curriculum has been scheduled by the department

for the Winter quarter. On the day schedule three major courses will be offered plus management 350, "Principles of Management."

Fourteen courses are scheduled to be offered during the Winter quarter on the night schedule. Six senior courses will be available on Monday, Wednesday, and Friday nights. Two courses will be offered for juniors. The Tuesday and Thursday night classes will have four senior courses and two junior courses.

The production laboratory of the management department is located in room 201-F of the Ivy Street building. Facilities of the lab include equipment for time and motion study, production control, and plant lay-out. Also a movie projector is available for the department's use.

"Our production lab with its machinery, stop watches, motion picture projector, and various other items of auxiliary equipment is the finest such laboratory in the entire Southeastern area," Dr. Chapman said.

Irma Daniels

Administrative People: News, Cues And Clues

SINCE THIS is going to be the last column this year, I am going to cut it short for this issue.

CONGRATULATIONS to Roger Hopkins of the Business Office and his wife, Ann, who became the proud parents of a bouncing baby boy on Nov. 30. They named him Mark Allen.

SHARYN O'BRIEN has left the Guidance Office, School of Business Administration, to go to work at the Atlanta Journal-Constitution. Irma Daniels took her place and Miss Pat Livsey took Irma's place as student assistant.

ANNE PRUETT says that I am on her black list after that item I wrote about her in my last column. I'm sorry Anne, I'll try to do better next time.

IT SEEMS THAT November sure was the month for birthdays around here. Mozelle Martin (Registrar's Office), Mrs. Lennie Tallant (School Nurse), Dr. Sparks, and Dr. L. P. Bradley (Director of Guidance, School of Business Administration), all had birthdays during the month. Happy Birthday to you all.

WELL, THAT IS about all for now—But before I go I want to wish everyone a Merry Christmas and a Happy New Year.

Dr. Mescon Has Article in the Atlanta Journal

Dr. Michael H. Mescon, associate professor of management at Georgia State, had an article in the Atlanta Journal recently on installment buying.

Mescon refers to credit buying as a "free enterprises Frankenstein" in describing the retailer where "on one hand he demands payment since his economic survival is contingent upon payment. On the other hand, he encourages additional consumer buying by stressing liberal credit policies."

"Purchases are no longer centered," Mescon said. "The consumer, in many instances, buys to belong. The automobile today is viewed primarily as a status symbol and just incidentally as a means of transportation."

EVERYBODY YELL!—The Georgia State cheerleaders lead the Georgia State rooters in a cheer during time out at the season's opening game against Oglethorpe at O'Keefe high school gym last Monday night. The Panthers ran

into a cold first quarter and were never able to catch the Petrels and the final score showed the Oglethorpe team on top 47-42.

Pi Alpha Wins Football Crown For Second Time

Champs Defeat Pi Kaps 9-0; Are Unbeaten, Untied

Pi Alpha completed an undefeated, untied and unscored on season last Sunday with a 9-0 win over Pi Kappa Phi to capture for the second time in two years the Interfraternity Council touch football crown.

Hard-charging lines were the feature of the battle of the two teams, who were both undefeated when the whistle blew for the kickoff. Pi Alpha's linemen won

the battle of the lines and therein lies the key to their unscored-on record; a fast, mobile, rugged forward.

Pi Alpha broke into the scoring column early in the second quarter when Jack Donald broke through the PiKap line and caught Bill Aiken behind the goal for a two-point safety.

The Pi Alphas added seven points in the same quarter via Bill Parr's passing and Pat McGlon's receiving. Parr rolled out to the right and zeroed in on McGlon for 15 yards and McGlon legged the pigskin the final 15 yards for six points and an eight-point lead. Parr, aided greatly by hard blocking by the linemen, added the extra and last point on a run up the middle to make it 9-0.

PiKap was not through for the day, however, and started a drive that almost took them to pay dirt late in the second quarter. Aiken collaborated with Ken Attaway on a series of passes that winged the PiKaps to the one-foot line when that all-important element of time ran out.

THE KICKOFF in the second half was a signal for the men up front to take charge again. Due to defensive line stalwarts Clint Buckner, Ralph Armistead, Walter Fountain, and Crawford Kennedy, PiKap never threatened again.

The PiKap line was not to be outdone, though, and Pi Alpha also was unable to generate another scoring drive. Tommy Harris, Turner Leathers, Ken Morris, and Cecil Davis were standouts defensively for PiKap.

THIS WIN MARKED the second season in a row that Pi Alpha has gone undefeated and, although he other teams in the league were improved and stand to improve more, Pi Alpha will have to be added favorites to repeat next year.

For the PiKaps, the year also was successful. Coming from the crowd of teams classed as also-rans, the PiKaps won all but the championship game and also will be around for the first whistle next fall again challenging Pi Alpha for the diadem of IFC supremacy.

SPE WINS

Sigma Phi Epsilon's red-shirted "Sig-Eps" added another victory to their record with a 14-6 vic-

tory over a hustling but outmaneuvered Sigma Alpha Nu team in IFC action last Sunday.

Led by Bob Coleman's running and passing and the glue-fingered clutches of Jimmy Stone and Dave Dyer, the Sig-Eps fought back from a 6-0 deficit in the second quarter to out-class the SAN-men in the latter stages of the game.

Billy Stewart brought on-lookers to their feet with a twisting, twirling 30 yard scoring burst in the early moments of the second quarter to put the SAN-men ahead 6-0. Stewart's run was made possible by sharp down-field blocking by Baxter Jones and Bill Mizell. The extra ypoint pass was knocked down and the score remained 6-0, but not for long.

The Sig-Eps started moving on short passes by Coleman and they moved down to the ten yard line with only 30 seconds remaining in the half. Dyer flashed to the corner and Coleman found him there with a looping pass that was partially deflected by one of the SAN-men, but Dyer held on to the ball for the score and the game was even again, 6-6.

Coleman worked the same combination for the extra-point and the Sig-Eps left the field at half-time leading 7-6. A poor second half punt by SAN let the gate open for SPE. The Sig-Eps worked the ball down to the two, but the SAN-men closed the door and kicked out of immediate danger.

The damage was done, though and SPE started from the SAN 35 to TD territory. Short passes to Stone and Dyer got ten yards and then Coleman found Dyer in the clear for 25 yards and six points. When Coleman hit Stone for the extra point, the scoring was over and SPE had won 14-6.

Dave Johnson, Allan Jones, Stone and Dyer were defensive stars for SPE. Baxter Jones and Tip and Bill Mizell in the line and Stewart in the backfield were shining lights for the SAN-men.

Panthers Play Troy December 7

The Georgia State Panthers take on Troy State Teachers College of Alabama in their second start of the season Saturday, Dec. 7 at Roosevelt high school gym at 8 o'clock.

Five-point losers to Oglethorpe last Monday, the Panthers try to break into the win column with this second game. Troy stands to give the Panthers a run for the win money, though, as they will start a veteran team with good bench strength.

"We couldn't get started in the first quarter and that is what finally beat us," Coach Herbert "Stoney" Burgess commented after the game. "We'll start clicking soon and win our share."

Burgess said that there were "about 150" students at the Oglethorpe game and that he hoped that more would be at Roosevelt for the Troy game. "With good student support, this team will hustle every minute of every game," Burgess said.

GSC Basketball Season Kicked Off By Pep Rally

Georgia State College's 1957 basketball season got off to a noisy start with a pep rally led by the cheer leaders in the Student Lounge last Monday.

After a preview of the play "The Drunkard," put on by the Players, Miss Hart, faculty advisor to the cheer leaders, introduced GSC's coach, Herbert "Stoney" Burgess.

Coach Burgess then introduced the players on the basketball team and urged the student body to attend the game and help support the team.

He said that any team can play and lose because of lack of support from the student body. Coach Burgess praised the ability of the team and said that they had practiced in six gyms in Atlanta city high schools. He urged the student body to show its appreciation for the efforts of the players by attending the game that night.

Miss Hart then introduced the cheer leaders. Six of them were cheer leaders last year. These are: Carol Hudson, captain; Toni Sullivan, co-captain; Carolyn Reed, Lucy Speth, Mary Nell Reed, and Carol Freeman.

Four new cheer leaders were picked by tryouts and all are freshmen. These are: Becky Massar, Pepper Helms, Dottie Wiseburg, and Della Richardson.

POWELL FIRES—Panther center Gene Powell shoots two during the Oglethorpe game as Jerry Birdsong (foreground) and Jim O'Brien (41) watch for a rebound. This action came in the second quarter when the Panthers came from a 4-16 deficit to a 17-19 deficit at half-time. The Petrels slipped by the Panthers 47-42.

Panthers Lose 47-42

(Continued from Page 1) points, just when the Petrels needed it most and were maintaining in the Petrel attack.

AS A TEAM the Panthers hit 11 of 47 attempts from the field for a frigid 23 per cent average. The foul line average was more respectable with 20 of 36 counting toward a 55 per cent showing.

Individually, Tuck averaged 37 per cent on 13 attempts, making four count. Birdsong hit five of nine for a sparkling 55 per cent average. Tuck and Birdsong hit on 13 of 21 free throws between them.

HANNAH played an excellent floor game and was the Panthers' playmaker from his middle guard post in the Panthers' three-out.	
Ga. State (42)	Oglethorpe (47)
Powell (5)	Shamp (11)
Grabowski	Sullivan (11)
Birdsong (13)	Starnes (6)
Costen (2)	Hauck (11)
Hannah (5)	Carter (8)
Half-time score, 19-17, Oglethorpe.	
Subs: Ga. State — Tuck (16), O'Brien (2), Farr (1), Bowden, Killingsworth, Oglethorpe — Mobley, Dobbs, Powell, Clower.	

two-in offense. Jim O'Brien and Farr showed promise of better things to come in the future. The Panthers meet Troy (Ala.) Teachers College at 8 p.m. at the Roosevelt High School gym on

Dec. 7. Coach Herbert "Stoney" Burgess said that the Panthers will look better as they get more practice and game experience. The Panthers held game scrimmages Tuesday, Wednesday, Thursday, and Friday of this week in preparation for Troy.

SIGNAL SPORTS

BILL FOSTER
Signal Sports Writer

138 PEOPLE! Ridiculous. With a student body of 5,000, only 138 (counted) had enough school spirit to leave their comfortable armchairs and sacrifice their loyalty to television long enough to support the Panther cakkers in their clash with Oglethorpe last Monday night.

Although this is a very small number, hardly enough to call a percentage, reliable sources say that it was a pretty good turn out compared with last year's attendance. That, too, is shameful.

George State has the potential for a promising future in intercollegiate sports, especially basketball, but if the attendance is not improved all our hopes will be in vain.

Against Oglethorpe, Coach Burgess's squad lost by only five points. If this had been everybody's team on that Monday evening, the small margin of victory might have increased and found itself on the other side of the scoreboard.

It was a rough bout, as the final seconds indicate, and the Panthers fought hard to win it. But the lack of proper support failed to give them the initial boost that was needed to close the five point gap.

Spirit is shown in various ways. One of the poorest methods was exhibited in the last seconds of the exciting battle. With only eight seconds remaining on the clock, the Panthers were making a desperate attempt to over take the Petrels' 46-42 lead.

Jerry Birdsong, who led the Georgia State scoring with 13, was burning the last bit of fire in trying to steal the ball from Oglethorpe's guard, Billy Carter. When the two tripped and fell to the floor, about four Petrel substitutes charged from the bench and pounced on the court.

Fists flew among players, fans, coaches, and referees as the volcano of tension erupted. Birdsong had fouled Carter while attempting to capture the ball. Carter made good his shot and the two teams walked off the court.

This sort of support can very well be left at home by all.

CHAMPS CHARGE—Pi Alpha linemen rush Pi Kappa Phi's passer during their game last Sunday which Pi Alpha won 9-0 to wrap up the 1957 Interfraternity Council touch football championship. This was the second consecutive crown won by Pi Alpha as they went through undefeated, untied and unscored upon.

Test your personality power

(You're as Jung as you feel!)

	YES	NO
1. Do you let the opposite sex make up your mind for you when you're buying clothes?	<input type="checkbox"/>	<input type="checkbox"/>
2. Do you always ask to see the menu, even when you know what you want?	<input type="checkbox"/>	<input type="checkbox"/>
3. Do you choose your brand of cigarettes because of the package, rather than what's inside?	<input type="checkbox"/>	<input type="checkbox"/>
4. Do you agree that "The hand that rocks the cradle is the hand that rules the world"?	<input type="checkbox"/>	<input type="checkbox"/>
5. Do you look upon the sports car craze as kid stuff?	<input type="checkbox"/>	<input type="checkbox"/>
6. Do you consider puns the lowest form of humor?	<input type="checkbox"/>	<input type="checkbox"/>
7. Do you disagree with this statement: "The best tobacco makes the best smoke"?	<input type="checkbox"/>	<input type="checkbox"/>
8. Do you think TV will ever replace bundling as an indoor sport?	<input type="checkbox"/>	<input type="checkbox"/>

WIN \$25 CASH!
Dream up your own questions for future "Personality Power" quizzes. We'll pay \$25 for each question used in this college ad campaign. Send questions with name, address, college and class to: Camel Quiz, Box 1935, Grand Central Station, New York 17, N. Y.

If you answered "No" to all questions, you obviously smoke Camels — a real cigarette. Only 6 or 7 "No" answers mean you better get onto Camels fast. Fewer than 6 "No's" and it really doesn't matter what you smoke. Anything's good enough!

But if you want to enjoy smoking as never before, switch to Camels. You'll find nothing else tastes so rich, smokes so good and mild. Could be that's why more people today smoke Camels than any other cigarette. Love that Camel!

Have a real cigarette — have a Camel
